There is the reality you know. And on another dimensional plane, there exists a dark, twisted reflection of that universe. So familiar, and yet so different. An Empire in place of a Federation, where profit and power take precedence over peace and exploration.

Those rumors are, however, untrue. A handful of Imperial ships remain, intent on protecting Earth and what's left of the Empire. And commanding the newest and most powerful of those ships is a man equally intent on seeing it rise again—Captain Jean-Luc Picard.

Plus, expand upon the world of *The Mirror War* in four short stories focusing on some of your favorite characters: Data, Geordi La Forge, Benjamin Sisko, and Deanna Troi!

What's going on inside the Deadzone?! Find out in this comic series set in the world of the all-new Godzilla Kai-Sei Era.

Inside the new IDW Godzilla universe, there exists a mystery larger than any other...what is the Deadzone? Inhabitants of this new world know the Deadzone to be a walled-off portion of the Pacific Northwest, cordoned off after the most disastrous Godzilla attack the country has ever faced. The government would have its citizens believe that nothing is still alive inside the Deadzone...but do you believe that?

There are stories of a man...or rather, a half kaiju, half man...who travels freely throughout the Deadzone. Some say he can even kill a kaiju. Some say...this "wanderer" is not the only of his kind. Follow the Wanderer as he encounters the strangest characters to hit comics in a decade: Glasseater and Runt! Two kaiju-controlling kids who are being hunted for their strange abilities. Together, these three will run afoul of Godzilla-worshipping churches, the world's biggest Godzilla fan (literally!), and an underground kaiju fight ring.

Journey into this mysterious new world with writers Griffin Sheridan and Ethan S. Parker *(Kill Your Darlings)* and artist Pablo Tunica *(Godzilla/Ghostbusters 2, Sea Serpent's Heir)*. Homer's *The Odyssey* is widely considered to be the greatest epic of all time. So, how could you possibly make it more epic? Fill it with kaiju, that's how. Odysseus' journey home was already challenging enough, but what if instead of storms, sirens, and cyclopes, the gods sent monsters even more powerful than the titans? And what if Zeus sent the most powerful one of all to assist the king on his odyssey? It's like Homer said: "Of all creatures that breathe and move upon the earth, nothing is bred that is stronger than *Godzilla*."

The daughter of larger-than-life influencer-scientist parents, Minnie is too camera shy, sad over her lost pets, and angry at her parents to complete a make-or-break middle school project.

When it all becomes too much, Minnie rage quits her parents' show, and activates her stylish MicroRealm fanny pack. She'll dance through encounters with greasy pizza dinosaurs, angry laser robots, and toothy pool floats to push past her fears and bring the entire family home.

Crack open new worlds of adventure in this all-new graphic novel from Eisner-winner Caleb Goellner *(TMNT/Naruto, Ghost Cage)* and Eric Lide *(Sonic the Hedgehog, DragonForged: Sword of the Champion).*

"A particle of pulp, punk, and wild imagination, Jekyll Island revels in wild conspiracy and rip-roaring adventure." —The Comics Beat

In the shadow of World War I, a thrilling new world rises—a gilded world of miraculous technology, frightening threats, and brave new heroes. Discover this award-winning alternate-history graphic novel trilogy, now collected in a single volume!

At the turn of the century, 1/6th of the world's wealth vacationed in and around the tiny Georgia island of Jekyll. Captains of industry like Rockefeller, Vanderbilt, Morgan, and Carnegie all called the Jekyll area home, and used this place of grandeur to strategize a peace fostered by the end of the Great War. But an international cabal of anarchists, known internationally as Zeno and led by the infamous Luigi Galleani, seeks to disrupt the new order. Working across the globe, Zeno uses startlingly advanced technologies to seed unrest, taking lives in an effort to force the world back into another bloody conflict.

Supported by the wealth of Jekyll and the most innovative minds of the early 1900s, a newly formed band of heroes—all wounded veterans of the Great War—stand against the forces of chaos. As rivals race to unlock the secret of Nikola Tesla's death ray, cities burn, electricity crackles, and the fate of the world hangs in the balance.

Collecting *The Jekyll Island Chronicles, Book 1: A Machine Age War, Book 2: A Devil's Reach,* and *Book 3: A Last Call.*

GIGS

STORY BY MARK MOSEDALE

ART BY SI SMITH

276 Pages • $24.99 • TPB • JUNE 2026 ISBN 9781603095938

A.I. took the work. Gigs replaced jobs. Ordinary people are left to scrape together lives in a world that's no longer built for them. These are their stories.

In a frighteningly near future where Basic Income is supplemented by gig work assigned by "the app"... An octogenarian punk and a lonely young worker seek escape through music. A street artist makes art by night and paints over it by day. A has-been detective chases a case into a forgotten world. A drug runner makes a long, strange delivery. A writer marks her days on a decaying space station she can't leave. And a refugee asks for help in the last free place.

With a hard-won blend of biting satire and humanistic passion, two creators from the North of England weave together six divergent chapters into an extraordinary graphic novel. *Gigs* is both a powerful warning about the oppressive world to come and a defiant celebration of the humanity that will sprout up in the cracks.
